

What to Bring to Camp

Hydration:

We require each student to bring one gallon of water to camp EVERYDAY. Students may also bring a smaller water bottle or a camel back that can be filled from their gallon and carried with them as they work on the field. Please remind your student to drink their water throughout the day.

Sun Protection:

- Hat
- Sunglasses
- Sunscreen

Food:

We recommend that students eat a healthy lunch and breakfast before arriving at camp. You may also bring a snack (fruit, granola bars, etc.) to keep in the band room for our breaks.

Dinner hour is from 4-5PM, students may bring dinner to eat in the band room, walk to nearby restaurants for dinner, or be picked up by you for dinner, at your discretion. Please discuss these options with your student beforehand.

Remember: this is a heavy physical activity, feed your body like you're going for a long run.

Music:

- Instrument/reeds/valve oil/grease
- Show music and warm ups from mini camp
- Pencil
- Small notebook for notes
